

TRANSFER OF COPYRIGHT / AUTHORSHIP AGREEMENT

(TO BE FILLED BY THE CORRESPONDING AUTHOR)

Manuscript Id: M-10517

Manuscript Title: EMOTIONAL INTELLIGENCE AND ITS IMPACT ON TEACHING PERFORMANCE: A STUDY AMONG COLLEGE TEACHERS IN MUMBAI

Author's Name: Dr. Jay Mamtara

Licence Agreement: I declare and accept, on behalf of myself and all the authors, on a representative basis. The submitting author will be deemed to have obtained the consent of all of its co-authors under the copyright /authorship form and submit the article to the Scientific Research Journal of Science, Engineering and Technology.

Copyright Transfer: In return for accepting the above work for publication, I hereby assign and transfer to the publisher all my rights, titles and interests in the copyright in the work, including all of its elements graphic, photographic and image related. This transfer transfers to the publisher all my rights under any law governing moral rights, advertising rights, rights to privacy or other property rights directly or indirectly linked to the ceded work. This mission applies to all translations of the Work as well as to the display / preliminary publication of the abstract of the article accepted in electronic form before publication. If changes in authorship (order, deletions or additions) occur after submission of the manuscript, the agreement of all authors for such changes must be deposited with the publisher. The name of an author can only be deleted upon written request. (Note: material prepared by employees of the Government of India in the course of their official duties may not be protected by copyright.)

Author Representations: I certify and guarantee that:

1. The manuscript and all the other elements of the work are original works without fabrication, plagiarism or fraud.
2. The manuscript and all other elements of the work are currently not being considered elsewhere and the reported research will not be submitted for publication elsewhere unless a final decision is made that the manuscript is not acceptable for publication by the publisher.
3. No part of the manuscript or any other element of the Work infringes the copyright, moral right or any other right of a third party; all the graphic, photographic and image-related elements of the Work are used with the permission of any person or entity having rights in it; and I agree to provide the editor with written proof of this authorization at the request of the editor.
4. I have not granted, and I will not subsequently grant, to any person or entity other than the publisher, a license, assignment or other authorization of any kind whatsoever to exercise the rights of the author relating to the Work. I have not participated before and will not participate in the deposit of the Work on a platform or a repository in free access.
5. I made an important scientific contribution to the study and I know the main data described in the manuscript perfectly.
6. I have read the complete manuscript and assume responsibility for the content and completeness of the final submitted manuscript; I understand that if the manuscript, or any other element of the work, is found to be defective, fraudulent or in violation of any of my previous statements, I share the responsibility and any potential legal responsibility.
7. If any dispute arises, a final decision is taken by ISRDO Team.

Conflict Of Interest Disclosure: All my institutional or corporate affiliations and all sources of funding supporting the study are recognized. Unless stated otherwise on a separate sheet, I certify that I have no commercial associations (for example, consultants, patent license agreements, equity interests) that could represent a conflict of interest in relation to the manuscript submitted.

Experimental Procedures In Humans And Animals: The Publisher agrees with the principles set out in the Declaration of Helsinki and insists that all investigations involving human beings reported in the articles of the Publisher's journal be carried out in accordance with these principles. In the case of animal experiments, these should also conform to these latter principles or to analogous principles such as those of the International Association for the Study of Pain. In articles reporting on experiments involving surgery on animals, the type and dose of anesthetic agent used should be specified in the Materials and Methods section, and evidence should be provided that grade and grade anesthesia appropriate duration has been obtained. Authors reporting on their experimental work on humans or animals should also cite in the Materials and Methods section of the article that this work has been approved by an institutional clinical / human experimentation committee or an institutional review committee, respectively. care and use of animals (or equivalent), and that in the case of experimental work in humans, the informed consent of each human subject has been obtained. The editor and assistant editors are expected to reject articles in which there is no clear evidence that these principles have been followed, and reserve the right to judge the suitability of the article. use of humans and animals in experiments reported in articles submitted.

This Agreement is governed by the laws of the State of Gujarat (India), without regard to its choice of law principles.
